“To build the most dynamic, profitable and reputable conglomerate in the gulf by delivering outstanding service and value to clients and also to fulfill the group’s social responsibility by supporting and participating in community service and humanitarian works”

Our VISION

“GEO products will strive to be best-in class as a distributor of quality products and service”

About GEO

BUSINESS GROWTH

In 1977 the GEO Group made its first ripple in Sharjah a pioneering effort, GEO Electrical Contracting Trading Company Limited is engaged in speciality of Refrigeration, Air-Conditioning and other allied activities. We take pride in being associated with several landmark projects through supply of superior products and highly skilled manpower resources. By exploring new horizons, now diversified into various business ventures, spread across four countries GEO Group known that none of this would have been possible if it were not for the bounty of this country and encouragement from the government.

A true visionary, Mr. George V. Nereaparamban, our CMD started GEO Electrical Contracting Trading Company in the year 1976 in Sharjah, United Arab Emirates. With his dynamism and business acumen he further expanded his Company by setting up an Air-Conditioning Unit. His phenomenal achievements extended far beyond Gulf and India. Behind this dynamic person is a man with a humanitarian heart who deeply cares for the needy. He has immensely contributed to innumerable social causes and projects, expanding the Company's Corporate Social Responsibilities (CSR). Mr. George has shown the world that impossible is possible through sheer hard work and dedication by making GEO what it is today.

Mr Geon George who is born and brought up in UAE, knows the pulse of the market as he has been in business assisting his father, Mr. George Nereaparamban, from a very young age. He presides as the Executive Director of Geo Group and his primary role are managing company assets, optimizing financial operations, providing leadership to all staff, establishing business goals, advising the head of departments on organizational activities, overseeing and streamlining daily operations.

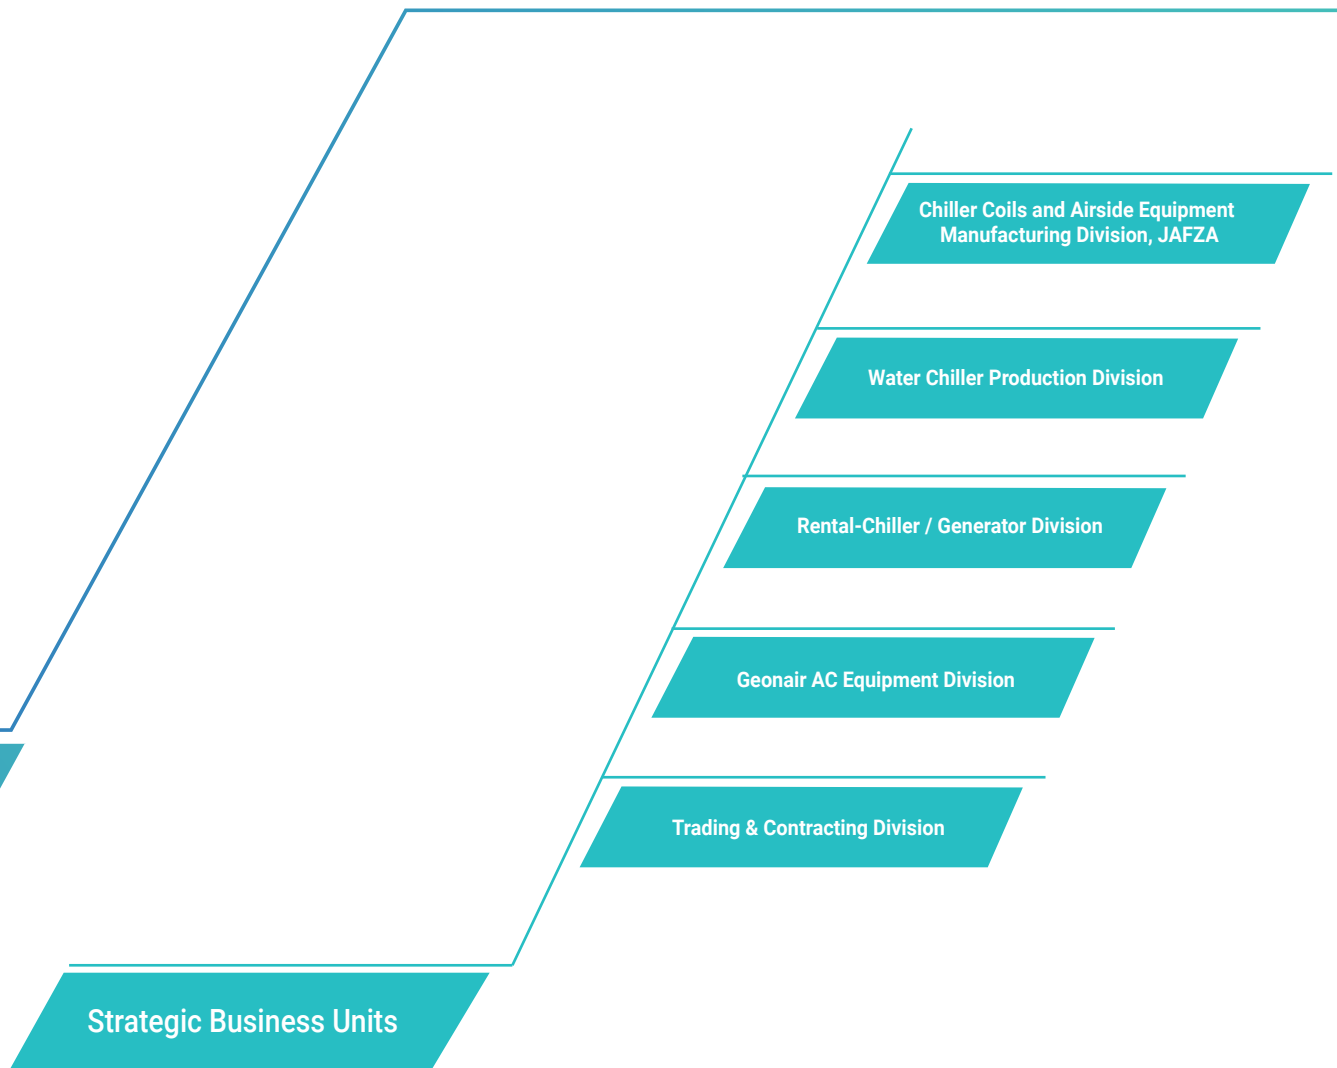

Ms Gemimol George, holds the post of Executive Director in the company, she joined the company right after her studies in UAE. She is tasked with overseeing overall systems, handling employee relations, ensuring compliance with regulations, managing budgets, assessing staffing needs.

ISO CERTIFICATION

We have been awarded the prestigious ISO 9001:2015 Certification which confirms that GEO conforms to the Quality Management Standard. We ensure that every solution delivered by us measures up to the highest possible International Standards and our valued clients are once again assured that our company's efficient and audited processes will enable them to meet their quality commitment and address issues promptly.

The ISO certification is an enabled testimony of firm's commitment to continuous quality improvement, full proof risk management and complete customer satisfaction. GEO will continue to break new ground, bring greater values to clients and build enduring relationships with global leaders.

➤ *GEO consists of six Strategic Business Units. They are broadly given below.*

CONTRACTING & TRADING DIVISION

GEO's Trading Division has become synonymous with comprehensive support in quality recondition, Air-Conditioners and Refrigeration Equipments throughout gulf regions. All the products come at premium quality that is regularly updated and are backed with warranties. The product range covers:

Air-condition & Refrigeration Units

- Air Cooled Chillers
- Domestic Chillers
- Industrial Chillers
- Package Units
- Floor Standing Units
- Window AC Units
- Wall Mount Units
- Ceiling Suspended Units
- Ducted Split Unit
- Chilled Water FCU
- Airhandling Unit
- Dehumidifiers
- Chilled Water Pumps
- In-Line Fans
- Industrial Fans
- Vaccum Pumps
- Desert Coolers
- Air Curtains

DOMESTIC CHILLERS

RENTAL DIVISION

Rental division caters to Air Conditioning and power generation systems. In Air Conditioning, GEO Group offers complete range of products and service from domestic to industrial to district cooling solutions. We are able to take up projects on turn key basis and the Rental division is well equipped with latest equipments, qualified and trained staff, vehicles and all accessories.

The product range includes:

- **Air Cooled Chiller**
- **Air Handling Unit**
- **Package Unit**
- **Floor Standing Unit**
- **100% Fresh Air Unit [DX & CHW]**
- **Pumps**
- **Industrial Fans**
- **Generators**
- **Diesel Tanks**
- **Water Tanks**

*Air Cooled Chiller
10Ton to 400Ton*

*Package Unit
5Tr to 30Tr*

*Air Handling Unit
2000CFM to 25,000CFM*

*Chilled Water Pump
0.5kw to 135kw*

*Floor Standing Unit
3Tr, 5Tr and 8Tr*

*Fresh Air Unit
2000CFM to 25,000CFM*

Power Generation Wing

We at GEO are fully equipped to cater to the power requirement of the clients. We are providing Generators of various capacities ranging from 2 KVA to 2200 KVA. These state of the art Generators are sourced directly from the manufacturers fitted with Perkins/Cummins Engines. Perkins/Cummins engines are well known for their quality and efficiency in operation. These Generators are offered for outright sale or hire for a shorter duration of one day to higher duration as per the requirement of the clients. We provide fuel tank of various capacities ranging from 250 gal to 10,000 gal. We have normal, double skin & container type fuel tanks. Our Generators are provided with internal & external fuel tanks, electrical distribution panels, suitable flexible wires, voltage stabilizers, step up & step down transformers as per the requirement. We have Trailer Mounted, Skid Mounted & Containerized Generators.

SERVICE AND MAINTENANCE DIVISION

With Ten's of Thousand's of satisfied customers and decades of experience behind the company we have proudly standardized a linear approach to service and maintenance, resulting in delivery of quality services and lasting solutions. Round the clock service is provided with stand-by technicians for uninterrupted performance of equipments rented out. The department is also responsible for extending appropriate warranties to all the products.

The company is also known for it's specialized AMC's (Annual Maintenance Contracts) for all equipment's. The Service Division is well organized with the support of a substantial fleet of vehicles to meet emergency requirements. To back the sales network, we have efficient and qualified team.. Execution of any type of maintenance and service requirements will be made available round the clock, ensuring complete consumer satisfaction. GEO Group realizes our moral responsibility towards society, GEO Group is one stop solution for all climatical requirements.

OUR BRAND “GEONAIR”

The brand and the labor of love, “Geonair” is the result of long and intensive research into modern and up-to-date methods. “Geonair” covers a wide range of air-conditioning and refrigeration products and is manufactured in Thailand under extreme quality control processes with ESMA standards. Over the years “Geonair” has come to stand for quality coupled with durability. Only certified fittings and fixtures of the finest quality are used in all geonair products. GEO electrical equipment establishment handles the retailing function of “Geonair” and the supplier of original spare parts. “Geonair” products are available at competitive prices along with after sales services.

Geonair Split Air-Conditioners

Split Air-Conditioners are cost effective choice to center Air-Conditioning. They are typically more effective than wall or window Air-Conditioner. Since the compressor sits outside, the mini split Air-Conditioners are very quiet and efficient. All our Geonair units are having ESMA (Emirates Authority for Standardization & Metrology) rating, which has been registered and approved by ECAS (Emirates Conformity Assessment Scheme) and has the best star rating which suits the weather conditions especially in the gulf regions.

- Geonair Chiller
- Package Units
- Free standing units
- Ducted split unit
- Cassette type unit
- Ceiling type unit
- Wall type unit
- Floor type unit
- Fan coil unit
- Air-handling unit (AHU's)
- Fresh-air handling unit (FAHU's)

AIR CONDITIONING & SPARE PARTS DIVISION

GEO Group provides the industry's widest range of filter-driers, accumulators, solenoid valves, thermostatic expansion valves, pressure regulators, strainers, couplings, service valves other products for controlling the flow of refrigerant. Commercial, Residential and Industrial markets are served. We also include segment, in the Mobile Air Conditioning segment, the Group provides air conditioning hose, steel and aluminum receiver dryers, steel and aluminum accumulators, thermostatic expansion valves and other products for cooling systems in automobiles. In the Fluid Control segment, the Group provides two, three and four-way solenoid valves, process control valves, high pressure steam valves, electro pneumatic regulators, and generators to control and meter fluids in a wide variety of applications.

Purchases, Sales and Exchange of used or re-conditioned items of all leading brands, at reasonable prices will also be handled by our department.

Spare Parts And Accessories

A wide range of original spare parts for all Air-Conditioning and Refrigeration equipments, working tools, electrical controls, refrigerant, adhesives, and insulation materials is available here.

INFRASTRUCTURE

GEO is undoubtedly the market leader in the UAE engaged in air-conditioning and generator rental business. GEO comes first in terms of infrastructure, facilities, staffing numbers, equipment and off course experience. GEO Electrical has a full fledged engineering workshop to do periodical maintenance, custom modifications on units for special requirements. Storage facilities include 2 Open Yards and 12 Warehouses with an area of 1,70,000 sq ft.

All spare parts for our units from nuts & bolts to compressors of all capacities are readily available so that clients can be assured of trouble free operation. GEO Electrical has a team of well experienced and trained personnel including AC Technicians, Electricians, Plumbers, HVAC engineers backed by Professional Management. Scrutiny of the market and following the air-conditioning industry for over three decades GEO Group is the ideal provider for all the customer's cooling needs.

RANGE OF COMMERCIAL & INDUSTRIAL COILS

When it comes to building coils, GEO coils has a wide range of coils for almost all heat transfer applications. The entire range of 9.52, 12.7, 15.88mm coils are manufactured at our fully equipment factory at Jabel Ali. We adhere to strict Quality Control Measures, equipped with a fully loaded Quality Control Department to meet the most rigorous quality demands. Tests are conducted under our Standard Operating Procedures [SOP] for all raw materials and finished product to ensure clean, disinfected and reliable products.

Quality Engineers examine coil components, tubes and fins as each coil is assembled. In-house inspectors review the coils at key stages and check that all special instructions are followed. Once the coil is fully assembled, it undergoes a final inspection. Each coil is leak-tested and filled with Nitrogen to avert any leakage in the coil.

- Chilled Water Coils
- Hot Water Coils
- DX Coils
- Condenser Coils
- Evaporator Coils
- Steam Coils
